

Business as usual during full fit-out with Avanti Glass Partitioning

Client: Crawford UK

Location: Chapeltown

Brief: Crawford UK required a full fit-out of approx 10,000sq ft of office space on two floors with the brief to maintain an open-plan feel of the space whilst at the same time creating private offices and meeting rooms. The provision of fully fitted kitchen and washrooms on each floor and a bespoke reception counter with frosted glass screens completed the scope of works, to be carried out whilst the offices were fully operational.

Avanti Legno Partitioning was utilised to provide a classical feel using solid oak and glass to create meeting rooms and offices. Glazed partitions with integral Venetian blinds were used to provide privacy when required and the installation of an operable wall added extra flexibility to the meeting room space. Legno is a natural timber partitioning system using steel sub-frame, finished with hardwood cover trims and snap-in inserts for a streamlined finish with no visible fixings. The system is fully specified to British Standards for both acoustics and fire resistance and can be moved and relocated to suit changing business requirements.

Minimum disruption. Like moving house, moving office premises can be a stressful time, especially when substantial changes have to be made in a short space of time. Although it was possible to get some work started prior to the move, most of the work was planned to be completed once the office was up and running. Domino worked closely with Crawford UK to ensure that areas were progressively completed and rendered fully operational with minimal disruption to the rest of the office.

What our client said "We are thrilled with the overall finish. The partitioning with solid wood frames gives a really high quality effect and the hardwood skirting running throughout the scheme adds a feeling of continuity. We were particularly impressed with Domino's installation team as we were fully operational at the time of the fit out. They worked very professionally around us and in a very clean and tidy manner, carrying out the more disruptive work before our working day started or after hours." Neil Mathews, Finance Director.

- Space planning service
- Office and Café Furniture

Our Accreditations:

- Main contractor
- CHAS accredited
- Construction Skills Certification Scheme
- Member of the Association of Interior Specialists
- Constructionline Registered
- Investors in People

Office Fit-out... Workplace Heaven or Hell?

What does your workplace say about your company? - Does it exude confidence, ambition, status and vision, as well as providing the space and facilities for you to excel at your job? - Or does it perhaps say something less complimentary about your business?

Remember - for your customers AND your staff, you only get one chance to create a first impression! One of the most positive ways to recruit, retain and motivate the best people is to address the issue of the office environment and make an investment in the way you and they work.

From project initiation we will work closely with you to design and build an environment

that matches your requirements: We will guide you through effective use of lighting, different styles of partitioning, suspended ceilings, flooring and decoration that combine to give the right feel for your business. By considering aesthetics, your working practices and your budget, we will ensure you achieve your goals and that business-critical first impression you need.

Whether you are fitting out a single office or a multi-storey office block please talk to us about how we can help. We offer a competitive and professional service backed by our own experienced construction teams, used to operating to tight timescales and able to work alongside your day-to-day business.
